An **EXHIBITOR AND BREEDER** will be defined as: "Where a herd is registered in the names of different members of a family, residing on one farm, and where the herd is one unit, all entries may be considered as a single exhibitor for Premier Exhibitor, Premier Breeder, Dairy Herd and Best Three Females classes."

OPEN SHOW SPECIAL AWARDS

SUPREME CHAMPION: The Grand Champion of each breed will compete. All Cows will show milked out.

PRODUCTION AWARDS AND MILK CHAMPION: The cow with the highest production record in each class of 3-year-old, 4-year-old, 5-year-old, aged cows and dry cows. Record must be twice daily/305 day actual milk record completed in 2008 or 2009. If milking 3X daily: 85% of 3X = 2X milking.

DHIA/DHIR sheet must be submitted to superintendent at time entries are checked in order to be eligible. **NO EXCEPTIONS.** The Milk Champion of the breed will be selected from these winners.

BEST UDDERED COWS: The two best uddered cows will be selected by the judge from each of the milking classes following the judging of that class. The selection will be based on udder alone. Milkout is at the discretion of the judge. Ribbons will be awarded to the winners.

THE MISSOURI MILKING SHORTHORN SOCIETY will award **The Margaret "Peggy" Jacques Memorial Plaque** for the Best Uddered Cow in the Milking Shorthorn Show. Only animals which are Missouri bred, born and solely owned within the calendar year and exhibited by residents of Missouri are eligible.

PREMIER BREEDER: Banner awarded to the breeder in each breed winning the most points on no more than eight animals in open single classes exhibited by the breeder and/or other exhibitors.

PREMIER EXHIBITOR: Banner awarded to the exhibitor in each breed winning most points on no more than eight animals in open single classes exhibited by himself or herself.

The Purebred Dairy Cattle Association Show Ring Code of Ethics

Adopted April 3, 2004

PDCA endorses this Show Ring Code of Ethics for all dairy breed shows and pledges its full cooperative support for its enforcement to show management, show judges, and the national breed associations.

The application of this Code of Ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics. Dairy cattle exhibitors shall at all times deport themselves with honesty and good sportsmanship.

It is recognized that there are certain practices in the proper care and management of dairy cattle that are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy state so they might be presented in the show ring in a natural, normal condition. At all times, exhibition livestock shall be treated in a humane manner and in accordance with dairy quality assurance practices so as to protect the health, safety and welfare of the livestock and the consuming public. No person shall present for exhibition or exhibit an animal which he or she knows, or has reason to suspect, is affected with or has been exposed to a dangerously contagious or infectious disease, disease, or illegal or non-approved use of drugs, medication and/or prohibited substance, or residue.

The position of the Purebred Dairy Cattle Association is that all animals presented for exhibition shall be in their natural conformation and structure, free of any alteration or modification by injection or internal or external administration of any substance or by any involvement in unethical fitting.

Grooming and Preparation:

Dairy cattle exhibitions are conducted under standards for evaluating conformation established by the PDCA Unified Score Card (1994), with specific breed characteristics taken into consideration by the show judge. In this connection, animals will be groomed and prepared for the judge's evaluation in order to display the animal's natural contour, conformation, performance and mobility. Specifically:

1. External applications of cosmetics that affect only appearance may be used, including by way of example hoof polishes and false switches.
2. The maximum allowable length of naturally growing hair anywhere on the topline is not to exceed 1". Exhibitors will be required to comply with this rule before the animal is allowed to enter the ring.
3. Addition of foreign objects, including but not limited to hair or hair substitutes, cloth or fiber, to change the natural contour or appearance of the animal's body is prohibited.
4. Externally sealing the teat end with a preparation that does not harm the animal's skin is permissible. Natural teat placement will be given preference over artificially positioned teats.

Violations: False, Deceptive or Unacceptable Practices:

These practices are violations of the Code of Ethics and will be reported to show management and may be reported to the respective national breed associations:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
2. Treating the animal, particularly the udder, internally or externally:
 - a. with an irritant or counter-irritant,
 - b. using a device to artificially create or enhance the udder crease,
 - c. using other substances as detected by testing that causes changes in the udder to artificially improve the conformation.
 - d. plugging of teat canal with foreign substances.
3. Surgical or unethical insertion of any matter under the skin or into body cavities, performed to change the natural contour or appearance of the animal's body (e.g., administration of fluid via a stomach tube or other similar apparatus to fill the rumen), though not to preclude practices required or involved in normal management.
4. Criticizing or interfering with the judge, show management or other exhibitors while in the show ring or other conduct detrimental to the breed or the show.
5. Challenging, threatening or interfering with an ethics committee appointed by show management to monitor the animals on exhibit on the show grounds.

Exhibitor Responsibility:

The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (hereinafter referred to as "Exhibitor") for show management to obtain any specimens of urine, saliva, blood, milk, or other substances from the animal to be used in testing. Materials may also be collected by ultrasound and photographic methods and by direct examination of animal.

The act of entering an animal is the giving of consent by the owner, exhibitor, fitter and/or absolutely responsible person (the "Exhibitor") to have disciplinary action for violation of this Show Ring Code of Ethics taken by show management, the state in which the show occurs, and/or the national dairy breed association without recourse.

Show Ethics Committee:

Each show should have an Ethics Committee. The make-up of this committee should include official breed representatives, representative(s) of show management (e.g., dairy cattle show superintendent, General Manager), the official show veterinarian, and Extension representative.

The Ethics Committee will be responsible for monitoring violations of the Show Ring Code of Ethics. The Ethics Committee will investigate the report of any violation and determine the accuracy of the allegation. The Ethics Committee will have the authority to inspect animals and related material to determine if violations have occurred.

Violations: Reporting and Investigation

Complaints of alleged violations can be reported to the breed superintendent, the show superintendent, show management, and/or the Ethics Committee.

Before An Animal is Shown:

If the Ethics Committee suspects that a violation of the Show Ring Code of Ethics will occur if the animal is shown, and that violation is reasonably well established before the animal is shown, the Ethics Committee will submit a report to show management.

Show management will discuss the violation with the Exhibitor:

1. If, at the Exhibitor's discretion, the animal in question is not shown, no violation will have occurred.
2. If the Exhibitor wishes to challenge that a violation occurred, he/she/they will have opportunity to appeal to the Ethics Committee. If its decision is not changed, the Exhibitor will be denied opportunity to exhibit the animal in question.

During and After An Animal is Shown:

All animals are subject to examination during judging. The judge and Ethics Committee are instructed to examine the top five (5) animals in each class closely for violations of the Show Ring Code of Ethics. When a violation may have occurred, a milkout may be called for. This call may be by breed association rule, or by request of an authorized representative of the national breed association, the judge, the Ethics Committee, or show management.

If an animal is exhibited and a violation of the Show Ring Code of Ethics is subsequently suspected, investigated, and determined to have occurred, the violation will be reported to the Ethics Committee and show management for action. The Exhibitor will be notified of the violation and the supporting evidence and invited to defend or explain the allegations.

Violations are subject to the disciplinary provisions of show management, the state in which the show occurs, and the national dairy breed association. Sanctions may include any one, or combination of the following:

- forfeiture or return of awards, prizes, premiums or proceeds;
- written letter of reprimand to the owner, exhibitor, fitter and/or absolutely responsible person (the "Exhibitor");
- disqualification of the exhibition livestock from an exhibition;
- disqualification of the Exhibitor from the show;
- publication of offense.

Disqualification may include any or all shows and classes and may be for any number of years.
